

COVID-19 looks different for those living with dementia.

Next time you see...

HEADACHE

COUGHING

MUSCLE/JOINT PAIN

ABDOMINAL PAIN

DIARRHEA

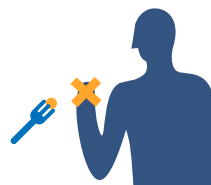

NAUSEA/VOMITING

LOSS OF TASTE/SMELL

SORE THROAT

REFUSAL TO EAT

UNEXPLAINED FALLS

FATIGUE

DELIRIUM

...think about **COVID-19**.

3 out of 4 people living with dementia and COVID-19 **do NOT** have a fever.

Think about ordering a COVID-19 test if you see any of these symptoms.
